

Rapidmoo

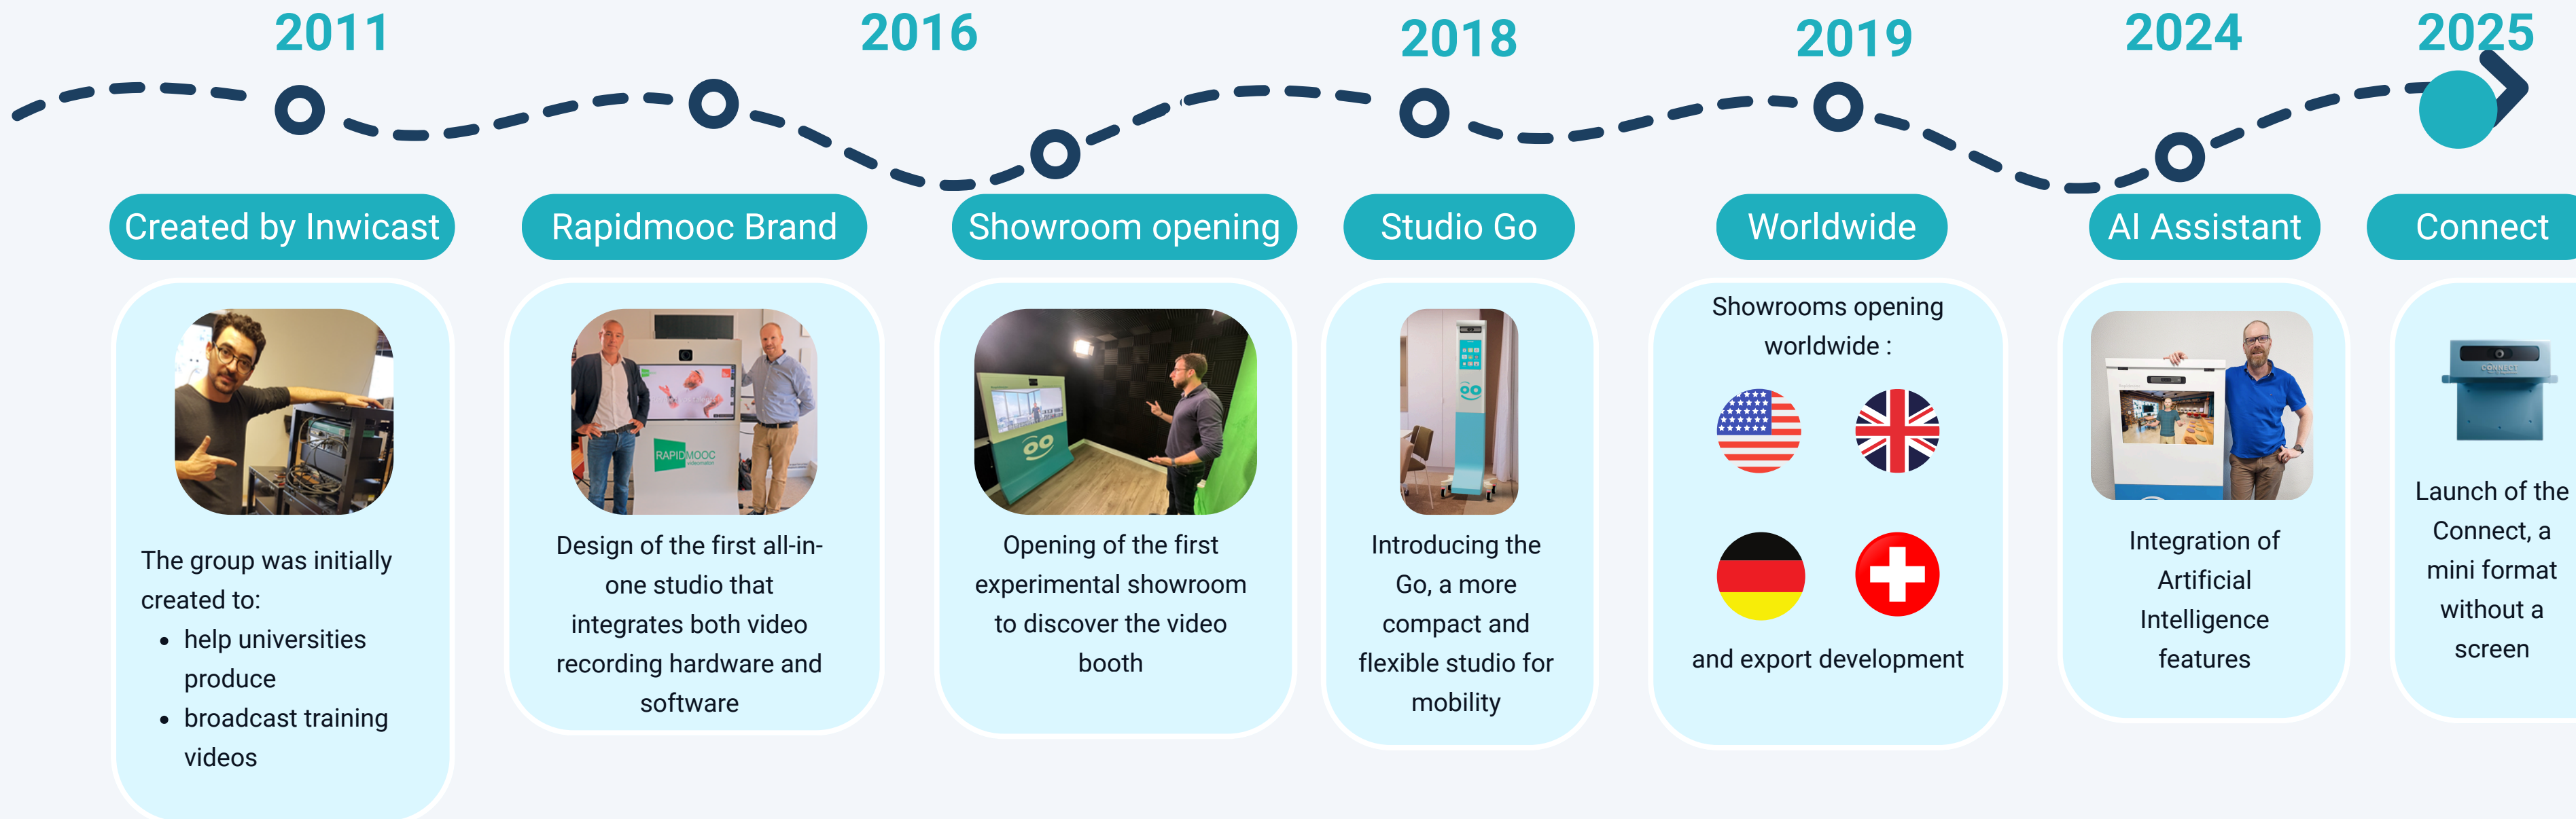

Transforming learning experiences through video

AI-powered ✨

Our story

Rapidmoooc

**ONLINE EDUCATION
SOLUTION OF THE YEAR**
EDTECH BREAKTHROUGH AWARD 2026

Our solution

We manufacture all-in-one video studios designed to be used independently by your teams, without prior technical knowledge. Our video booths combine:

1

state-of-the-art
equipment

2

Intuitive and user-
friendly interface

3

Range of
accessories

Made in France

Our studios are manufactured in a family workshop in the South of France, as well as in the Lyon region.

Combining artisanal know-how and technological innovation, they reflect local expertise and a particular attention to quality, while guaranteeing sustainable and responsible manufacturing.

Easy video creation for all sectors...

Education

- › Primary
- › Secondary
- › Superior

Business

- › Direction
- › Sales
- › Formation / RH
- › DSI
- › Marketing / Communication

Institution

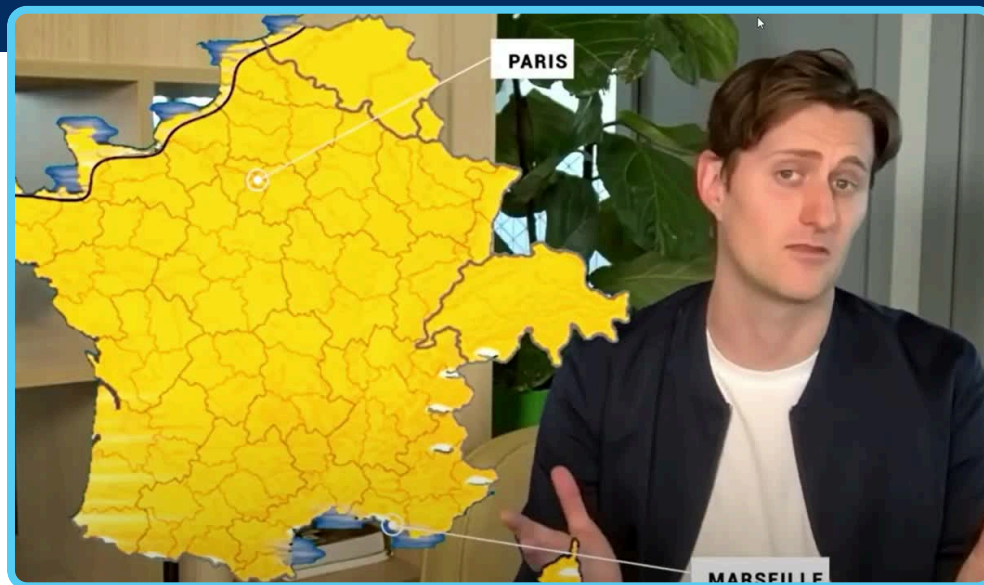

- › Public administration
- › Health

...and for all uses

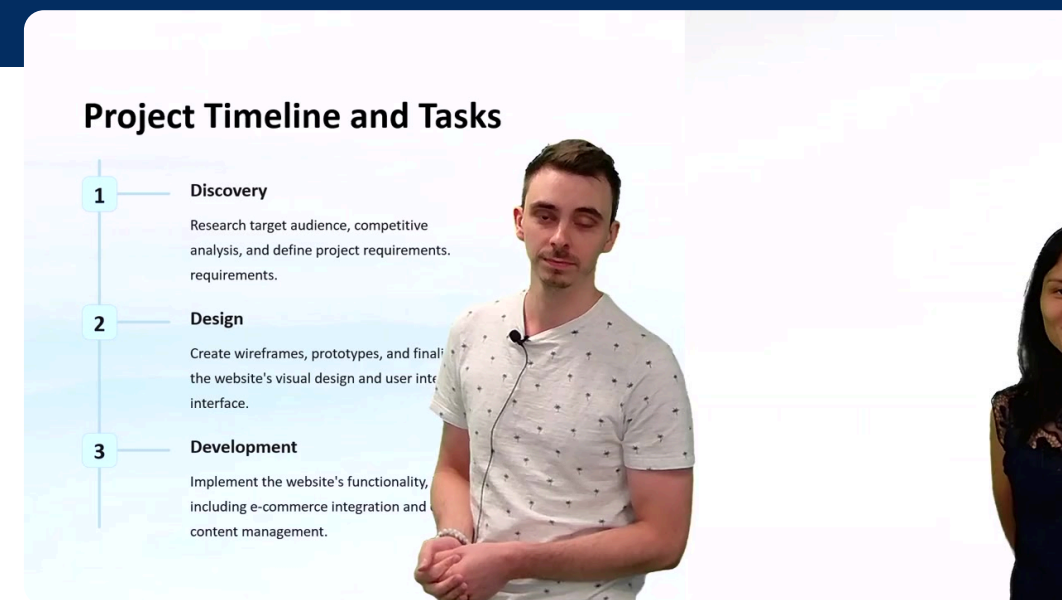

Memorization triggers

Visual communication

- A synthetic background, a dynamic form
- A sensory experience, more than just a visual one.

Break down concepts

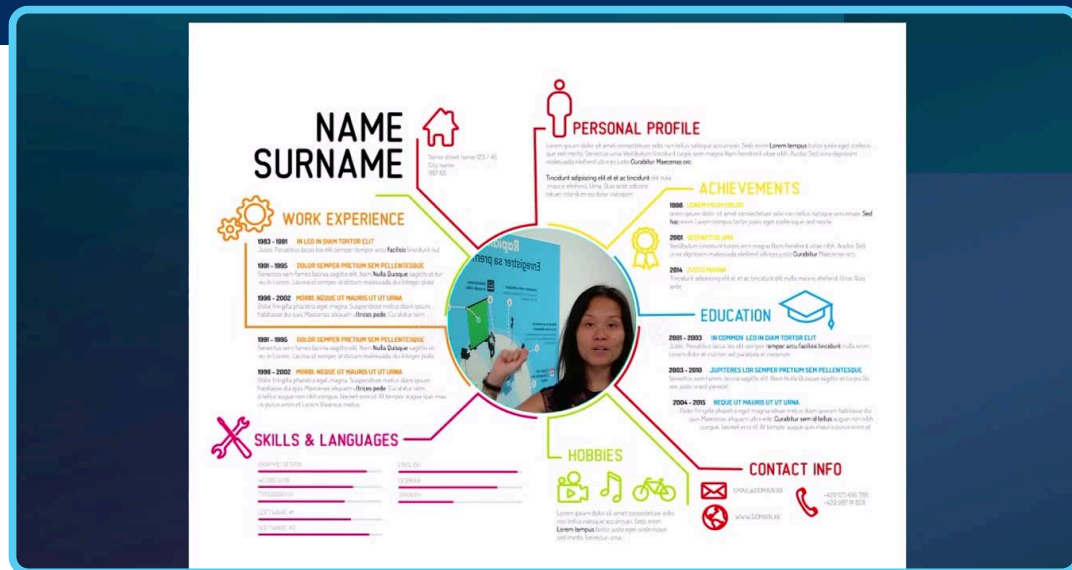

- Clarifying abstract concepts with concrete examples
- Going beyond the constraints of proportions and perspectives to provide more detailed explanations

Captivating the audience

- Offer a guided tour or a slideshow of scenes rather than a traditional presentation
- Adopting cinematic techniques to increase the appeal of the content

The power of a creative scenario

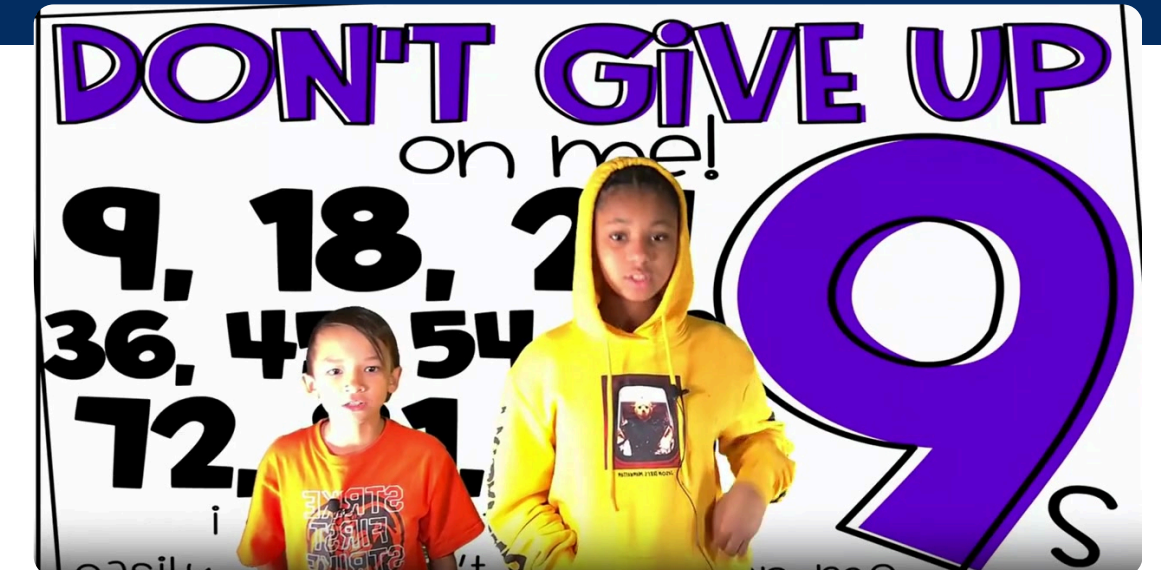

To tell a (your?) story

- To dynamically illustrate a chronological or thematic journey
- Keeping the audience's attention with sensory surprises and narrative twists

Create an immersive narrative

- Building a collective imagination to complement individual imagination
- Bringing emotion to presentations creates a feeling.

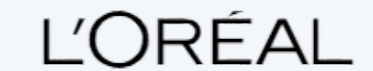

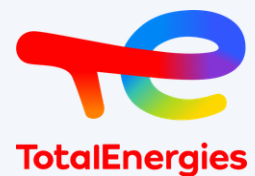

Motivating learning

- To offer a more dynamic and engaging teaching experience
- Use new communication codes to captivate learners

Our users

More than 650 companies, schools and universities are equipped with Rapidmooc studios.

All-in-one studios

CAMERA

new videos produced every week

"With the Rapidmooc studio, we have been able to create high-quality sports training content in record time, which significantly improved our efficiency."

Real-time language practice with an avatar

Create more engaging content

Strengthen brand awareness

Improve comprehension and memorization

Simplifying complex messages

Increase the reach of messages

Success story #1

THALES

“In just 6 shoots, the initial investment in the Rapidmooc studio was fully recouped.”

Several Rapidmooc studios have been installed at various Thales Group sites in France and the UK. Initially acquired to create video training courses, they are now widely used for internal communication purposes.

“It’s a training accelerator at Thales, offering our users complete autonomy and at a lower cost.”

THALES
Thales Learning Hub

Success story #2

A key video component in the deployment of the Learning Center

Fully integrated into the project to modernize the campus into a Learning Center, the Rapidmooc studio quickly gained unanimous support thanks to the unlimited creation of videos, growing enthusiasm and rapid profitability.

50

studio bookings in 8 months

"There's a wow factor when we show people the room. The video studio is popular with both students and all the school staff. We've already renewed the license for the next 3 years."

Samantha STIEF - Project Manager, Learning Center, Arts et Métiers Campus, Metz
