Custom designs with any colour and style
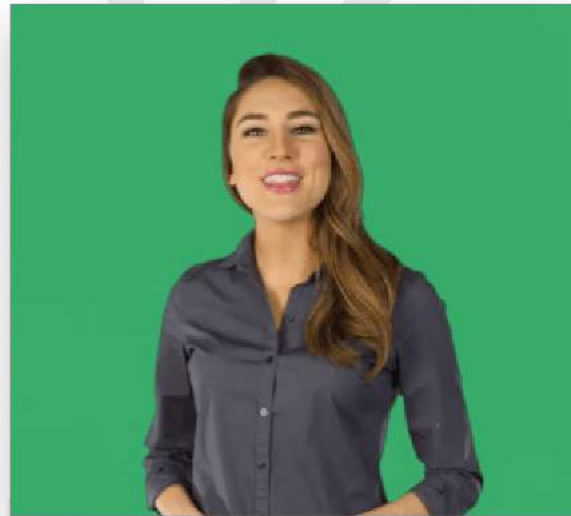

Personalize the studio with your organization branding
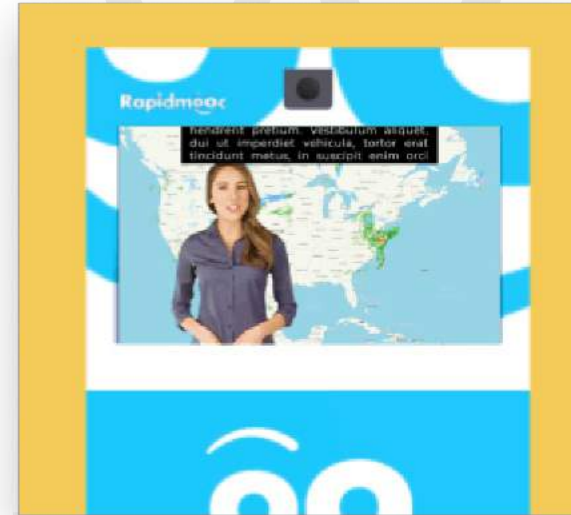

Our built-in application is extremely easy to use

Record, view, start over...
# the virtuous circle for creating videos

01

Once the Rapidmooc studio is set up, you just need to bring your computer and start the application

02

The mirror effect lets you see yourself, overlaid (or not) onto your presentation, depending on whether you're in front of a green screen or in your surroundings

03

Use the teleprompter to read your script and focus on your non-verbal language! It can also be used to control the speed of your presentation.

04

Once the recording is finished, you can watch, edit and share the video... or start again: 1 Rapidmooc studio offers an unlimited number of possibilities!

4 clever recording modes

Use striking video effects, effortlessly!

Green screen

Overlay yourself onto your PowerPoint presentation. Or put a website, video or any other piece of content behind you!

Use striking video effects, effortlessly!

Augmented reality

Spice up your reality by adding PowerPoint presentation elements to your surroundings, directly in front of you
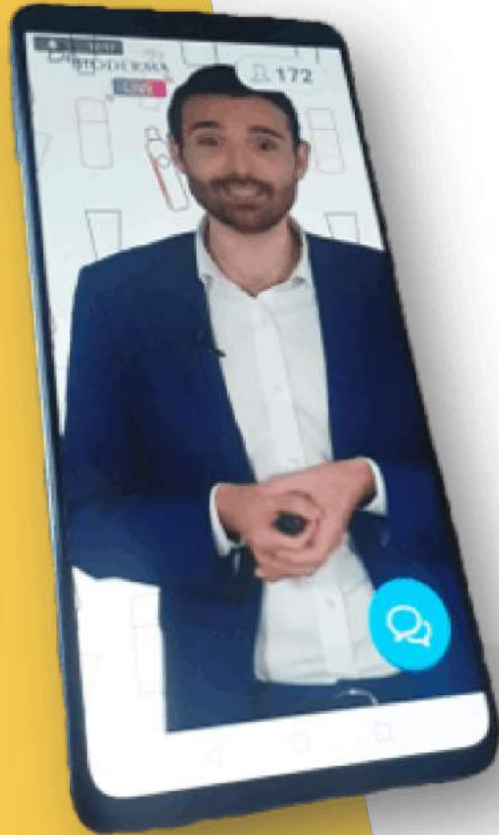

Picture in picture

The 2 camera feeds and data are shown separately but overlapping. Several different inset options available: portrait, landscape, bubble, corner, etc. Combines with automatic framing and speaker tracking

Side by side

A simple format where the 2 camera feeds and data are presented side by side. Fill the background with whatever image you like.

Broadcast your Rapidmooc presentation live

On YouTube Live, Facebook Live, Vimeo Live... or any other compatible platform

You Tube Live   f LIVE   vimeo · livestream   WOWZA media systems

Leverage the power of video in your business

Communication
Flash news, reviews, events, greetings cards, annual reports, live

Sales
Presentations of products, services, call for tenders, results and sales news

Marketing
Analysis presentations, reports, guidelines, distribution network training and management

Training
Educational short videos, tutorials, teasers, expert interviews, user feedback

KM - documentation
Create and share knowledge amongst employees, testimonies and best practices, revive existing content, etc.

RH
Recruitment, adverts, job presentations, soft skills practice, onboarding, etc.
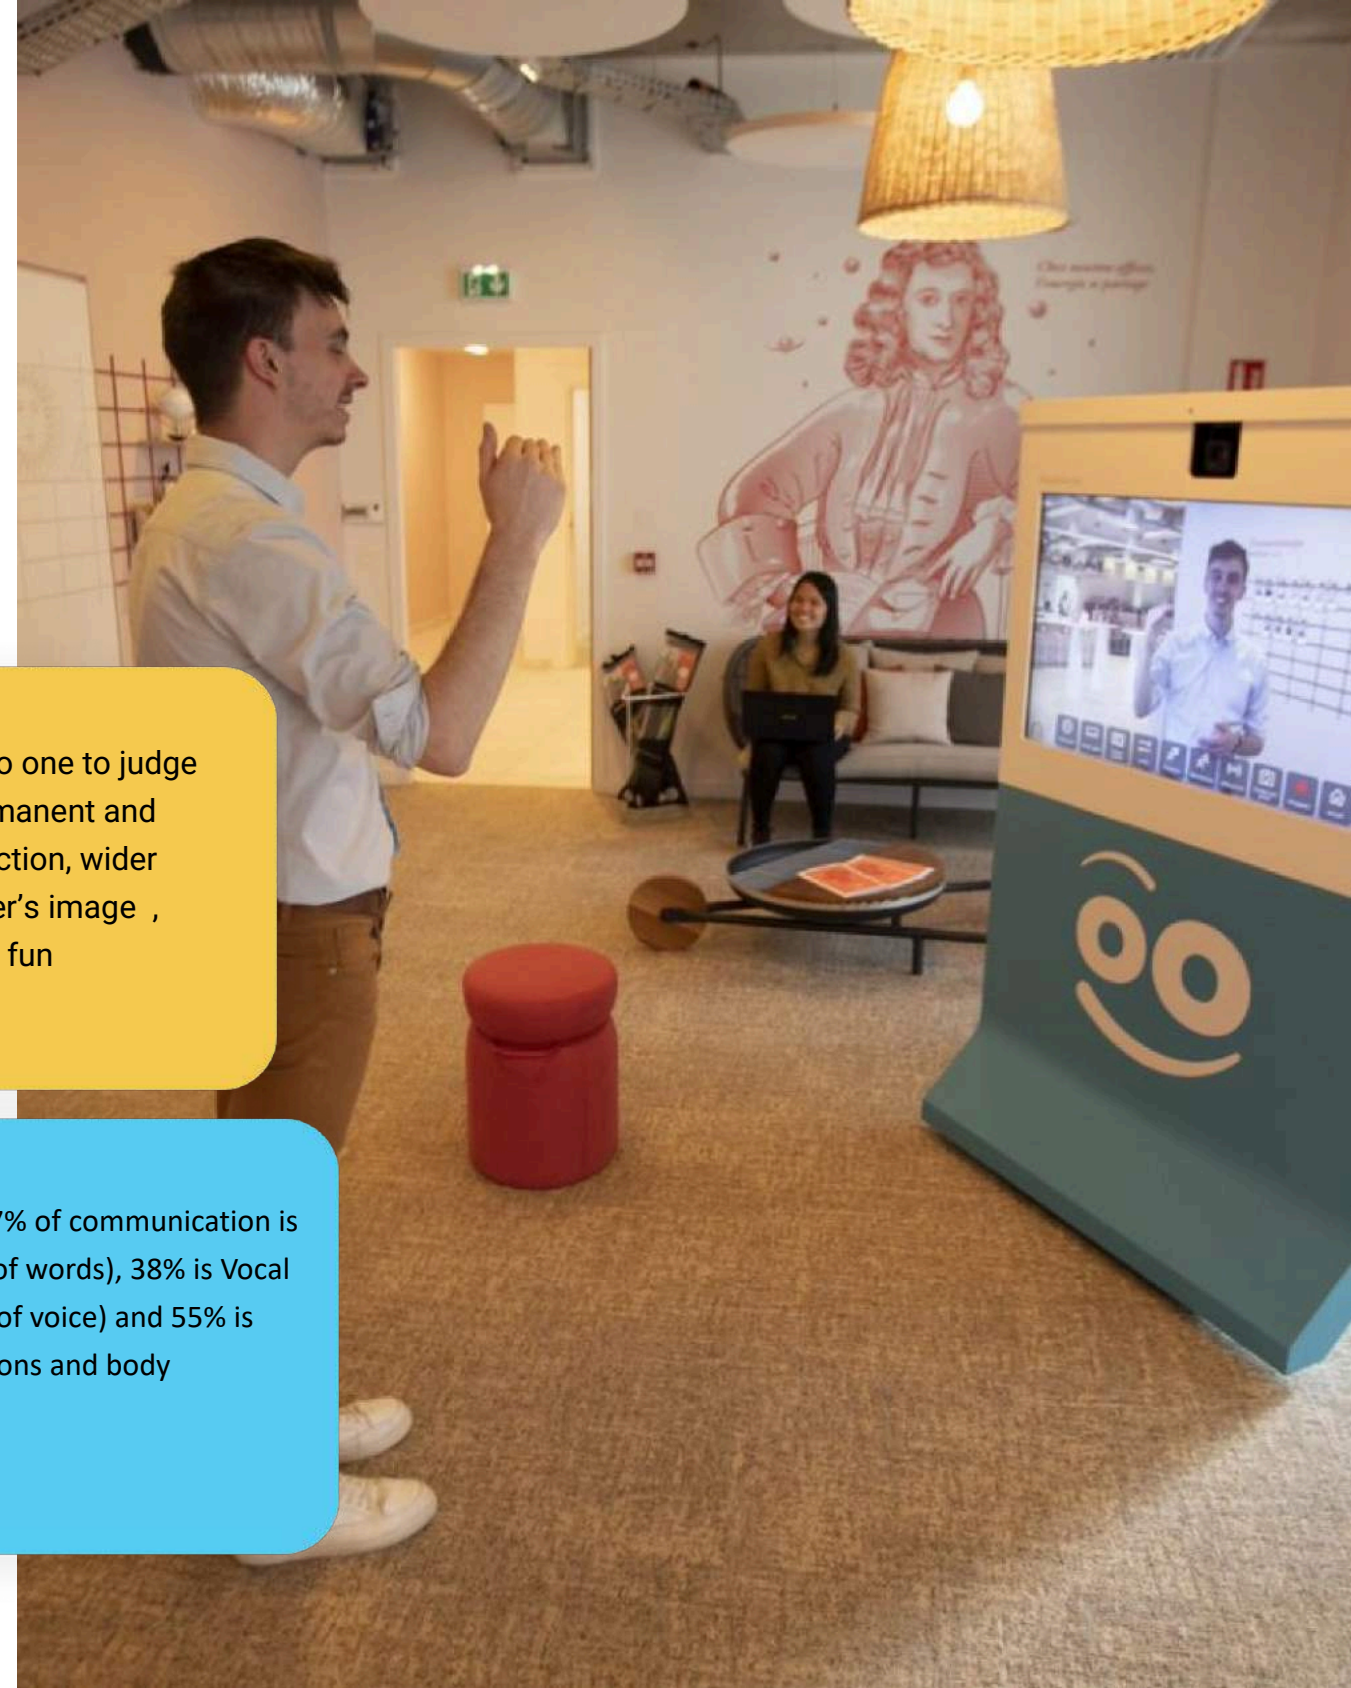

Rapidmooc changes how you see video

Create a bond with your audience

Rapidmooc includes triggers that help users feel comfortable very quickly, making their speech more natural with facial expressions, gestures, smiles, intonations, accents... and even jokes! The very essence of communication

This grabs and maintains the audience's attention, ensuring messages are understood and remembered.

Right to mistakes, no one to judge you (independence), permanent and instantaneous autocorrection, wider environment than speaker's image , teleprompter assistance, fun (edutainment)

The rule of 3Vs: 7% of communication is Verbal (the meaning of words), 38% is Vocal (intonation and tone of voice) and 55% is Visual (facial expressions and body language).
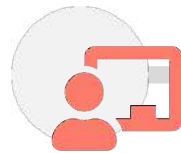

An extremely simple video production chain

minimum effort, maximum quantity!

Authenticate

CAS, Shibboleth, AD, OAUTH 2, Office 365, etc.
